

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Friday - 27 July 1962

25X1 [redacted] John Buckley, Administrative Assistant
to Representative Dante B. Fascell (D., Fla.), called and said that
[redacted] is "having a problem"
25X1 which somehow involves [redacted] Buckley asked if we would have someone
25X1 get in touch with him and straighten the matter out. We will discuss
this with [redacted]

25X1 [redacted] In Bill Darden's absence, left with Harry
Wingate, on the staff of the Senate Armed Services Committee, the
Director's letter containing follow up items on last month's briefing
of the Committee. With respect to possible dates for the current
briefing, I advised Wingate that August 1 and 3 were possibilities
although the Director had USIB meetings scheduled on those mornings
and that the Director's calendar was presently upon on the morning of
the 10th. I indicated to Wingate that the 10th was by far the best date
from our standpoint.

25X1 [redacted] Returned to the Senate Internal Security
Subcommittee a copy of the transcript which was loaned to us of the
25X1 testimony of [redacted]

25X1 [redacted] Returned to Representative Charles
M. Teague (R., Calif.) the chart prepared for him by the Library of
Congress of the organization of the Soviet space program with comments
which had been provided by OSI. I also made the general observation
to the Congressman that considering the fact that the Library of Congress
had made the chart solely from information collected from unclassified
sources and had undertaken the almost impossible task of superimposing
the Communist Party apparatus over the government administration
of the space program, they had done a pretty good job. Mr. Teague
appreciated our review of the chart and commented that he was most
anxious to become as completely informed as possible since as next ranking
Democrat to the Chairman of the House Space Committee, he would be in
line with the chairmanship if Congressman Miller should retire or be
defeated.
